

STUDENT TECHNOLOGY ACCEPTABLE USE FORM

HILLSBORO CITY SCHOOL DISTRICT COMPUTER NETWORK, INTERNET and E-MAIL ACCEPTABLE USE AGREEMENT, PERMISSION and RELEASE FORM

We are pleased to offer students of the Hillsboro City School District Board of Education ("Board") access to district computer networks for research, electronic mail and the internet, to gain access to these networks, all students under the age of 18 must obtain parental permission and must sign and return this form to the Principal of the building. Parent permission is required for such use and access. Students 18 years of age and older may sign their own forms.

While our intent is to make internet access available to further educational goals and objectives, students may find ways to access other materials as well. The Board believes that the benefits to students from access to these information resources and opportunities for collaboration exceed the disadvantages. However, parents and guardians of minors are ultimately responsible for setting and conveying the standards that their children should follow when using media and information sources. To that end, the Hillsboro City School District supports and respects each family's right to decide whether or not to apply for access.

Students are responsible for good behavior on school computer networks just as they are in a classroom or a school hallway. The rules and regulations set forth in the Student Code of Conduct shall apply to the use of school computers. Each student shall be given a copy of the procedures and guidelines pertaining to computer network access, and a copy shall be posted in a conspicuous place in each building. The procedures and guidelines may be subject to change without notice, The Board shall make every effort to communicate and explain all changes to students in a timely manner.

This Acceptable Use Agreement is governed by Board Policy 9.21, "Student Internet Safety Policy." A copy of this Policy will be made available to students and parents, upon request, and a copy shall be posted in a conspicuous space in each building. Any questions concerning this Acceptable Use Agreement or Board Policy should, be directed to the Superintendent, Building Principal, Teacher, or designated staff member.

Access is a privilege, not a right. Access to network services will be provided to students who act in a responsible manner consistent with the laws of the United States and the State of Ohio, Board Policies, and the Student Code of Conduct. Communications on the computer network, files, servers, Internet or in electronic mail are public records when used to conduct the business of the school district. Network storage areas may be treated like school lockers.
